Baseus

Baseus CafeLux Cable

Really Strong And Durable

Upgrade

Double-sided insertion

Without identifying positive or negative side.

No cracking

Extended joint,full coverage

Thousands of bending tests.

3cm

Tensile, bending tests

The bending tests are measured by the Baseus laboratory. The results are obtained from the bending machine under the laboratory environment.

Matrix silicone tactile charge

2.4A fast charge

Four effective coil for fast charge! Faster than others!

OPPO R9 charging test

The charging test was measured by the Baseus laboratory. The above test was carried out in the laboratory environment. The results are for reference only.

without popping up windows

Charge,transfer data

Can be performed at the same time

Line does not break

Anti-stretch Anti-folding

The line is straight, slightly harder than ordinary wires and can withstand pull test.

The following tests are measured by the Baseus laboratory. The above test was carried out in the laboratory environment. The results are for reference only.

Wear -resistant

High-density weave is tight

Can withstand long-term use, the wire is durable.

Hit color design

Perfectly matches your phone.

Quick to store it

Simply and neatly

Simple and practical Velcro features,Not farewell to messy.

Micro devices

Widely compatible

HUAWEI/ XIAOMI/ HTC/ Samsung/ ...

A variety of sizes available everywhere

Product parameters

Brands: Baseus

Name: Baseus CafeLux Cable

Material: Nylon Braided + TPE + High-density Nylon Braided Wire

Colour: Red Black/ Grey Black/ Red

Output current: 0.5m/ 1m/ 1m/ 2m 2.4A Max

1.5A Max

Transmission speed: 480Mbps

Suitable for: Micro interface devices

For Micro interface devices

- Durable solder insertion
Made of durable alloy and connected reliably,positive and negative side.
- 6A Full coverage protection
Made of durable alloy and connected reliably,positive and negative side.
- High-density braided wire
Made of durable alloy and connected reliably,positive and negative side.
- Widening the wire design
Made of durable alloy and connected reliably,positive and negative side.
- Micro set
With micro switch,no easy damage,and portability.
- 480Mbps high speed data transmission
480Mbps high speed data transmission,data transmission time is faster than others.
